SUMMARY

Final-year BSc Informatics student with a strong foundation in software development, database design, and web application development. Passionate about building digital solutions that solve real business problems through innovative and user-centred technology. Experienced in developing full-stack applications using Python, Flask, MySQL, HTML, CSS, JavaScript, and Git. A proactive learner with strong analytical, collaboration, and problem-solving skills seeking to begin a career through the Vodacom Discover Graduate Programme.

EDUCATION

University of South Africa (Unisa)

BSc Informatics, Current Average: 70%

Expected Completion: 2026

Relevant Modules:

Systems Analysis and Design, Database Systems, Web Development, Programming, Information Systems, Networking, Project Management, Statistics.

PROJECTS

Resort Booking Management System | Python | Flask | MySQL | Bootstrap

- Designed and developed a web-based booking system for a resort to streamline chalet, conference hall, and spa reservations.
- Developed secure customer booking workflows
- Designed a normalized relational database
- Reduced booking conflicts through availability validation
- Built responsive interfaces for desktop and mobile devices
- Produced professional project documentation including Business Requirements, Software Requirements Specification, Use Cases, Database Design, and Stakeholder Analysis

Bank Management System | Python | Flask | MySQL

- Developed a banking application to manage customers, accounts, loans, employees, branches, and transactions.
- Implemented CRUD functionality across multiple business modules
- Designed relational database architecture
- Integrated authentication and role-based access
- Developed financial reporting features
- Applied software engineering best practices throughout development

BML Tech Portfolio Website | HTML | CSS | JavaScript

- Designed and developed a responsive portfolio website showcasing technical projects and services.
- Responsive design
- Interactive user interface
- Project showcase
- Contact functionality
- GitHub integration

TECHNICAL SKILLS

Python
JavaScript
SQL
HTML5
CSS3
Flask
Bootstrap
Git
GitHub
MySQL
PostgreSQL (Learning)
Visual Studio Code
MySQL Workbench
pgAdmin
Qt Creator

CERTIFICATIONS

Responsive Web Design
Python Programming
SQL Fundamentals
Git & GitHub

LEADERSHIP & PERSONAL ATTRIBUTES

Strong analytical and critical thinking skills
Excellent problem-solving ability
Adaptable and quick learner
Effective team collaborator
Customer-focused mindset
Strong communication skills
Self-motivated and accountable
Passion for technology and innovation

ACHIEVEMENTS

Developed multiple end-to-end software applications. Applied Agile software development principles in academic projects. Produced professional software documentation aligned with industry standards. Experienced using GitHub for version control and collaborative development.
